ICCK
ANNUAL CONFERENCE

Welcome to ICCK-2025

Dear Colleagues,

It is with great pride and enthusiasm that we welcome you to the Interventional Cardiology Council of Kerala (ICCK) Annual Conference 2025, taking place from 15th August 2025 at Tiara by MPS, Kozhikode.

Over the years, ICCK has become a premier platform for sharing clinical expertise, advancing knowledge, and fostering collaboration among interventional cardiologists and allied professionals. This year's edition promises to be our most dynamic and insightful gathering yet — built around real-world experiences, practical learning, and bold discussions that challenge conventional thinking.

The Scientific Committee has meticulously curated a program that blends innovation with relevance. From high-impact case presentations to deep dives into complication management, every session is designed to deliver practical take-home messages that you can apply in your daily practice.

Highlights of ICCK-2025 include:

- **Code Red – Nightmare Cases That Shaped Legends:** Candid explorations of challenging cases and how they were conquered.
- **Complications in Coronary Interventions:** Lessons learned from complex scenarios in the cath lab.
- **Complications in Structural Heart Procedures:** Strategies and innovations in high-stakes interventions.
- **Interactive Case Discussions & CD Presentations:** Multimedia-driven learning from real-world cases.
- **Expert Panels & Q&A Sessions:** Engaging debates and practical insights from leaders in the field.

Beyond the sessions, ICCK-2025 offers a valuable opportunity to network with peers, exchange ideas, and build collaborations that can shape the future of interventional cardiology in our region and beyond.

We are grateful to our faculty, contributors, partners, and each one of you for making this conference possible. Your passion for excellence is the driving force behind ICCK's continued success.

We invite you to immerse yourself fully in the program, participate actively, and carry forward the knowledge and inspiration gained here into your practice.

Welcome to ICCK-2025 — where experience meets innovation, and learning shapes the future.

Warm regards,

Organizing Team

Case 3 (8+7 Min)

Dr Shafeeq Mattummal

7.15 PM - 7.30 PM

Case 4 (8+7 Min)

Dr Arun Gopi

Session 3 - Complications in Coronary Interventions

Chair : Dr John F John, Dr Anil Kumar R
Dr N P Padmaja, Dr Nandakumar S, Dr Bino Benjamin

7.30 PM - 7.45 PM

Case 1 (8+7 Min)

Dr Rony Mathew

7.45 PM - 8.00 PM

Case 2 (8+7 Min)

Dr Sajan Narayanan

8.00 PM - 8.15 PM

Case 3 (8+7 Min)

Dr Prathap Kumar N

8.15 PM - 8.30 PM

Case 4 (8+7 Min)

Dr Sivaprasad K

Day-2 : 16th August 2025 (Saturday)

8.30 AM - 9.00 AM

Session 1 : Intensive Lipid lowering

Chair : Dr Sajeev C G, Dr Venugopal K, Dr Cibi Issac, Dr Jayesh Bhaskaran, Dr Supriya D Nambiar

CASE SUBJECT

A 45-year-old male, who recently suffered an anterior wall myocardial infarction (AWMI) and underwent primary angioplasty with a drug-eluting stent (DES) for single-vessel disease (SVD) of the LAD, was reviewed at 3 months. Despite being on atorvastatin 80 mg, ezetimibe 10 mg, and bempedoic acid 180 mg daily, his LDL cholesterol remained at 125 mg/dL.
